Kailos Genetics Research only uses Genetic and Self-Reported Information from users who have given consent according to the applicable Consent Document. 1. Acceptance of Terms

Your use of Kailos Genetics' Services (excluding any services provided by Kailos Genetics under a separate agreement) is subject to the terms of the legal agreement between you and Kailos Genetics set forth in these Terms of Service ("TOS"). Except as specified herein, these TOS apply to any use of the Services, including but not limited to a) submitting a personal genetic sample (i.e. buccal swab, blood, etc) for DNA extraction and processing, b) uploading a digital version of your Genetic Information and interacting with it on the Kailos Genetics website, and/or c) creating and using a free Kailos Genetics account without providing your personal genetic sample or Genetic Information. In order to use the Services, you must first agree to the TOS. You may not use the Services if you do not accept the TOS. You can accept the TOS by (1) clicking to accept or agree to the TOS, where this option is made available to you by Kailos Genetics for any Service; or by (2) actually using the Services. In this case, you acknowledge and agree that Kailos Genetics will treat your use of the Services as acceptance of the TOS from that point onwards. In addition, when using particular Kailos Genetics Services, you shall be subject to any guidelines or rules applicable to such services that may be posted from time to time. All such guidelines or rules are hereby incorporated by reference into the TOS. Kailos Genetics also may offer other services from time to time that are governed by different terms of service.

2. Prerequisites

- a. Whether you submit your own personal genetic sample, a personal genetic sample for anyone for whom you have legal authority to agree, or otherwise provide your own Genetic Information, you may not use the Services and may not accept the TOS if (1) you are not of legal age to form a binding contract with Kailos Genetics, or (2) you are a person barred from receiving the Services under the laws of the jurisdiction in which you are resident or from which you use the Services.
- b. In addition to the conditions above, if you contribute or otherwise provide your own Genetic Information, you must be eighteen (18) years of age or older to agree to these TOS on behalf of yourself or those for whom you have legal authority to agree.
- c. If your use of the Services includes creating a Kailos Genetics account, without submitting a personal genetic sample or otherwise providing Genetic Information, you must be thirteen (13) years of age or older to use the Services and accept the TOS.

3. Description of the Services

The Services include access to the Kailos Genetics public website and personal genotyping services, including the collection and analysis of your personal genetic sample. Unless explicitly stated otherwise, each new feature that augments or enhances the current Service shall be subject to the TOS. You acknowledge and agree that the Services are provided "AS-IS" and are based on the current state of the art of genetic research and technology in use by Kailos Genetics at the time of the purchase or viewing. As research progresses and scientific knowledge and technology evolve, Kailos Genetics is constantly innovating in order to provide the best possible experience for its users. You acknowledge and agree that the form and nature of the Services which Kailos Genetics provides may change from time-to-time without prior notice to you. As part of this continuing innovation, you acknowledge and agree that Kailos Genetics may stop (permanently or temporarily) providing some Services (or any features within the Services) to you or to users generally at Kailos Genetics' sole discretion, without prior notice to you. You may stop using the Services at any time. You do not need to specifically inform Kailos Genetics when you stop using the Services unless you are requesting closure of your account. Kailos Genetics assumes no responsibility for the use of Services outside the terms of this TOS or other applicable terms. In order to use the Services, you must obtain Internet access, either directly or through devices that access web-based content, and pay any service fees associated with such access. You are solely responsible for paying such fees. In addition, you must provide all equipment necessary to make such Internet connection, including a computer and modem or other access device. You are solely responsible for providing such equipment. You acknowledge and agree that while Kailos Genetics may not currently have set a fixed upper limit on the number of transmissions you may send or receive through the Services or on the amount of storage space used for the provision of any Service, such fixed upper limits may be set by Kailos Genetics at any time, at Kailos Genetics' discretion.

4. Risks and Considerations

Regarding Kailos Genetics Services, once you obtain your Genetic Information, the knowledge is irrevocable. **You should not assume that any information we may be able to provide to you, whether now or as genetic research advances, will be welcome or positive.** You should also understand that as research advances, in order for you to assess the meaning of your DNA in the context of such advances, you may need to obtain further services from Kailos Genetics or from your physician or other health care provider. **You may learn information about yourself that you do not anticipate. This information may evoke strong emotions and has the potential to alter your life and worldview. You may discover things about yourself that trouble you and that you may not have the ability to control or change (e. g. , that someone with your genotype may have a higher than average chance of developing a specific condition or disease). These outcomes could have social, legal, or economic implications.** The laboratory may not be able to process your sample, and the laboratory process may result in errors. The laboratory may not be able to process your sample if your personal genetic sample does not contain a sufficient volume of DNA or the results from processing do not meet our

standards for accuracy. If the initial processing fails for any of these reasons, Kailos Genetics may reprocess the same sample at no charge to the user and/or Kailos Genetics will offer to send another kit to the user to collect a second sample at no charge. If the user declines this option, the user is entitled solely and exclusively to a complete refund of the amount paid to Kailos Genetics, less shipping, handling and sample processing, provided that the user shall not resubmit another sample through a future purchase of the service. If the user opts to receive another sample collection kit and Kailos Genetics' attempts to process the second sample are unsuccessful, Kailos Genetics will not send additional sample collection kits and the user will be entitled solely and exclusively to a complete refund of the amount paid to Kailos Genetics, less shipping, handling and processing, provided the user shall not resubmit another sample through a future purchase of the service. If the user breaches this policy agreement and resubmits another sample through a future purchase of the service and processing is not successful, Kailos Genetics will not offer to reprocess the sample or provide the user a refund. Even for processing that meets our high standards, a small, unknown fraction of the data generated during the laboratory process may be uninterpretable or incorrect (referred to as "Errors"). As this possibility is known in advance, users are not entitled to refunds where these Errors occur. **You should not change your health behaviors solely on the basis of information from Kailos Genetics. Make sure to discuss your Genetic Information with a physician or other qualified healthcare provider before you act upon the Genetic Information resulting from Kailos Genetics Services.** For most common diseases, the genes we know about are only responsible for a small fraction of the risk. There may be unknown genes, environmental factors, or lifestyle choices that are far more important predictors. **If your data indicate that you are not at elevated genetic risk for a particular disease or condition, you should not feel that you are protected.** The opposite is also true; if your data indicate you are at an elevated genetic risk for a particular disease or condition, it does not mean you will definitively develop the disease or condition. In either case, **if you have concerns or questions about what you learn through Kailos Genetics, you should contact your physician or other healthcare provider.** Genetic research is not comprehensive. While we measure many hundreds of thousands of data points from your DNA, only a small percentage of them are known to be related to human traits or health conditions. The research community is rapidly learning more about genetics, and an important mission of Kailos Genetics is to conduct and contribute to this research. In addition, many ethnic groups are not included in genetic studies. Because interpretations provided in our service rely on these published studies, some interpretations may not apply to you. Future scientific research may change the interpretation of your DNA. In the future, the scientific community may show previous research to be incomplete or inaccurate. Genetic Information you share with others could be used against your interests. You should be careful about sharing your Genetic Information with others. Currently, very few businesses or insurance companies request genetic information, but this could change in the future. While the [Genetic Information Nondiscrimination Act](#) (GINA) was signed into law in the United States in 2008, its protection against discrimination by employers and health insurance companies for employment and coverage issues has not been clearly established. In addition, GINA does not cover life or disability insurance providers. Some, but not all, states and other jurisdictions have laws that protect individuals with regard to their Genetic Information. You may want to consult a lawyer to understand the extent of legal protection

of your Genetic Information before you share it with anybody. Furthermore, **Genetic Information that you choose to share with your physician or other health care provider may become part of your medical record and through that route be accessible to other healthcare providers and/or insurance companies in the future.** Genetic Information that you share with family, friends or employers may be used against your interests. Even if you share Genetic Information that has no or limited meaning today, that information could have greater meaning in the future as new discoveries are made. If you are asked by an insurance company whether you have learned Genetic Information about health conditions and you do not disclose this to them, this may be considered to be fraud. **Kailos Genetics Services are for research, informational, and educational use only. We do not provide medical advice.** The Genetic Information provided by Kailos Genetics is for research, informational, and educational use only. This means two things. First, many of the genetic discoveries that we report have not been clinically validated, and the technology we use, which is the same technology used by the research community, to date has not been widely used for clinical testing. Second, in order to expand and accelerate the understanding and practical application of genetic knowledge in health care, we invite all genotyped users to participate in Kailos Genetics Research. Participation in such research is voluntary and based upon a consent document. As a result of the current state of genetic knowledge and understanding, our Services are for research, informational, and educational purposes only. **The Services are not intended to be used by the customer for any diagnostic purpose and are not a substitute for professional medical advice. You should always seek the advice of your physician or other health care provider with any questions you may have regarding diagnosis, cure, treatment, mitigation, or prevention of any disease or other medical condition or impairment or the status of your health.** Kailos Genetics does not endorse, warranty or guarantee the effectiveness of any specific course of action, resources, tests, physician or other healthcare providers, drugs, biologics, medical devices or other products, procedures, opinions, or other information that may be mentioned on our website. If we provide to you on our website any recommendations that identify for you, based on your Genetic and Self-Reported Information and scientific literature or research, potentially actionable information, this information is intended for informational purposes only and for discussion with your physician or other healthcare provider. As explained on our website, Kailos Genetics believes that (a) genetics is only part of the picture of any individual's state of being, (b) the state of the understanding of Genetic Information is rapidly evolving and at any given time we only comprehend part of the picture of the role of genetics, and (c) only a trained physician, genetic counselor or other healthcare provider can assess your current state of health or disease, taking into account many factors, including in some cases your genetics as well as your current symptoms, if any. Reliance on any information provided by Kailos Genetics, Kailos Genetics employees, others appearing on our website at the invitation of Kailos Genetics, or other visitors to our website is solely at your own risk. While we are licensed in Alabama as a clinical laboratory, not all jurisdictions require our Services to be subject to license. Therefore, we are not universally licensed by all state, federal, or international authorities for genetic testing conducted for health and disease-related purposes. In addition, there are certain jurisdictions in which we do not offer our Services because we do not have required licenses.

5. Returns & Refunds

Sample collection packages not returned within thirty (30) days of shipment are subject to the loss of payment and refusal of service by Kailos Genetics. At our discretion, a refund may be issued without requiring a return of the sample collection package. Refunds are applied solely to the specific payment device utilized for the transaction.

6. User Representations

By accessing Kailos Genetics Services, you agree to, acknowledge, and represent as follows:

If you provide any Registration Information that is untrue, inaccurate, not current, or incomplete, or if Kailos Genetics has a reasonable ground to suspect that such information is untrue, inaccurate, not current, or incomplete, Kailos Genetics has the right to suspend or terminate your account and refuse any and all current or future use of the Service (or any portion thereof). After you have purchased our Service, you will create a password and account designation. Note that Kailos Genetics cannot control any further distribution of Genetic and/or Self-Reported Information that you share publicly. You acknowledge and agree that you are responsible for protecting and enforcing those rights and that Kailos Genetics has no obligation to do so on your behalf. Your personal genetic sample, once submitted to and analyzed by us, is processed in an irreversible manner and cannot be returned to you. See our website for more information on sample processing. Any Genetic Information derived from your personal genetic sample remains your information, subject to rights we retain as set forth in these TOS. You understand that you should not expect any financial benefit from Kailos Genetics as a result of having your Genetic Information processed; made available to you; or, as provided in our Privacy Statement and Terms of Service, shared with or included in Aggregated Genetic and Self-Reported Information shared with research partners, including commercial partners. Waiver of Property Rights. As stated above, you understand that by providing any sample, having your Genetic Information processed, accessing your Genetic Information, or providing Self-Reported Information, you acquire no rights in any research or commercial products that may be developed by Kailos Genetics or its collaborating partners. You specifically understand that you will not receive compensation for any research or commercial products that include or result from your Genetic Information or Self-Reported Information.

14. Indemnity

You agree to defend and hold Kailos Genetics, and its subsidiaries, affiliates, officers, agents, contractors, partners, employees, successors, and assigns harmless from any claim, or demand, including reasonable attorneys' fees, made by any third party due to or arising out of User Content you submit, post to, or transmit through the Service; your use of the Service; your connection to the Service; your violation of the TOS; or your violation of any rights of another. If you have submitted a personal genetic sample or otherwise provided your own Genetic Information, you will defend and hold harmless Kailos Genetics, its employees, contractors, successors, and assigns from any liability arising out of the use or

disclosure of any information obtained from genotyping your personal genetic sample and/or analyzing your Genetic Information, which is disclosed to you consistent with our Privacy Statement or results from any third-party add-ons to tools we provide. In addition, if you choose to provide your Genetic and/or Self-Reported Information to third parties - whether individuals to whom you facilitate access, intentionally or inadvertently, or to third parties for diagnostic or other purposes - you agree to defend and hold harmless Kailos Genetics, its employees, contractors, successors, and assigns from any and all liability arising from such disclosure or use of your Genetic and/or Self-Reported Information.

15. No Resale of Service

Other than pursuant to the terms of the Limited License of this TOS or unless otherwise agreed in a separate agreement between you and Kailos Genetics, you agree not to display, distribute, license, perform, publish, reproduce, duplicate, copy, create derivative works from, modify, sell, resell, exploit, transfer, or transmit for any commercial purposes, all or any portion of the Service, use of the Service, or access to the Service.

16. General Practices Regarding Use and Storage

You acknowledge that Kailos Genetics may establish general practices and limits concerning use of the Services, including without limitation the maximum number of days that Personal Information and Services content will be retained by the Service, the maximum disk space that will be allotted on Kailos Genetics' servers on your behalf, and the maximum number of times (and the maximum duration for which) you may access the Services in a given period of time. You acknowledge and agree that Kailos Genetics has no responsibility or liability for the deletion of or failure to store any messages, other communications, or other content maintained or transmitted by the Services; or for the loss of Genetic Information due to malfunction or destruction of data servers or other catastrophic events. You further acknowledge that Kailos Genetics reserves the right to change these general practices and limits in its sole discretion.

17. Modifications to Service

Kailos Genetics reserves the right at any time and from time to time to modify or discontinue, temporarily or permanently, the Services (or any part thereof) with or without notice. You acknowledge and agree that (i) modifications may result in a delay in computations for some of the Kailos Genetics features or Services, and (ii) Kailos Genetics shall not be liable to you or to any third party for any modification, suspension, or discontinuance of the Services. You acknowledge that Kailos Genetics may offer different or additional technologies or features to collect and/or interpret Genetic Information in the future and that your initial purchase of the Service does not entitle you to any different or

additional technologies or features for collection or interpretation of your Genetic Information without fee, and that you will have to pay additional fees in order to have your Genetic Information collected, processed, and/or interpreted using any future or additional technologies or features.

18. Termination

The TOS will continue to apply until terminated by either you or Kailos Genetics as set out in this Section. If you want to terminate your legal agreement with Kailos Genetics, you may do so by notifying Kailos Genetics at any time in writing, which will entail closing your accounts for all of the Services that you use. Your notice should be sent, in writing, to Kailos Genetics' address, which is set out at the beginning of the TOS, or online via Customer Care. If you provide notice online, Kailos Genetics will send you an email asking you to confirm your request, and your notice will be effective following receipt of a second email confirmation from you.
